

12 people are diagnosed with cancer every day in the UAE with breast, colorectal and lung cancers being the most common types.²

60% of deaths in GCC countries are due to non-communicable diseases (NCDs) such as Cancer, Heart Disease and Stroke.⁴

Heart Disease and Stroke are both in the top 3 causes of death in the UAE.¹

Cancer cases are expected to double within the next 10 years in the Middle East.³

AIG Care & AIG Care+

A helping hand for you and your loved ones.

Receive a lump sum payment of up to AED 500,000, starting from just 52 fils per day.

AIG Care & AIG Care+ Critical Illness products offer standalone financial plans that help you secure yourself against life-threatening illnesses, diseases, and disorders that you might suffer from. AIG Care & AIG Care+ Critical illness products are different from health insurance products in a way that they typically offer a significantly better payout, which you can use at your convenience if you're diagnosed with one of the illnesses, diseases, or disorders that your policy covers.
